

This is where you save time & money

This program is designed to help our customers reduce risks and increase profitability. We take a straight-forward approach to operational financing with these time and money saving principals:

- Competitive rate structures with variable interest rates
- Pay interest only on the money actually used (not on the approved amount)
- No hidden financing fees or charges; No penalties for early repayment
- Increase your operation's liquidity to effectively utilize cash flow
- Plan next year's financing needs before current year loan is repaid
- No more lost discounts and eliminate late charges on open trade account

Rebate Rewards Financing Program

For Our Valued Customers

As with everything we do, the Rebate Rewards Financing Program was designed to bring value beyond the basic product. It is distinguished from other introductory programs and product-specific financing by rewarding steadfast patrons with bottom-line benefits.

What is it?

Rebate Rewards is structured to reward customers who make growing or increasing purchases from STAR Energy with increasingly higher rebates on their line-of-credit interest charges.

How it Works

Each STAR Energy product line minimum purchase is worth a 5% rebate of interest paid by customer. A minimum of 2 product lines is required to qualify for the interest rebate program. If minimum levels are purchased in all 4 product lines, a 25% rebate of the interest paid will be given to the customer.

Product Lines	Minimum Purchase Levels
Delivered Refined Fuels	4,000 gallons
Delivered Propane Gas	2,000 gallons
Lube Oil	110 gallons
Cardrol Fuels	600 gallons

# Of Product Lines Purchases	% Of Interest Paid Rebated to Customer
1	0% Rebate
2	10% Rebate
3	15% Rebate
4	25% Rebate

Convenience

Have your STAR Energy statement automatically paid each month.

- No more missed discounts.
- Don't pay 19% late charges again.
- Pick the due date that works best for you.
